

NetCharts Pro v7 – Experience the Exciting New Technology Today!

With NetCharts Pro v7.0 Java developers can create HTML 5 compliant web applications *today*. By supporting SVG, rich-client chart enabled applications can now run in HTML 5 compliant browsers without the need for third party browser plug-ins. Plus, NetCharts Pro v7.0 supports browsers that may not be HTML 5 compliant by automatically and seamlessly translating SVG into Flash within the browser.

NetCharts Pro is *the* solution for Java developers to deliver dynamic, interactive charts and graphs within applications, via web-browsers, or within internet enabled devices.

No time to migrate? No problem. We can help.

Don't worry about spending nights and weekends trying to migrate from a prior version of NetCharts Pro or NetCharts Applets. Our migration and design services include:

- Updating older NetCharts Pro or Applets versions to NetCharts Pro 7.0 within your application
- Assistance using new NetCharts Pro 7.0 features such as SVG/Flash output and new interactivity features
- Identifying the best visualization types for your KPIs
- Review NetCharts Pro APIs used to ensure best practices
- Training on the updated NetCharts Pro APIs

NetCharts Pro v7.0 Migration and Design	Service Packages*
Onsite	\$4,750
Online	\$3,375

Take the Next Step

To learn more about NetCharts Pro v7.0, or to schedule your Migration and Design Service, contact:
 Craig Hohlbein | Director of Client Services | Direct: 301-795-2204 | Email: chohlbein@visualmining.com

* Visual Mining customers on an active support and maintenance policy are entitled to receive new product releases as they occur. If you are not currently on an active support and maintenance policy, please contact us to enroll today. Prices above are based on an estimate of two days. You will not be billed more than the prices listed above for services required to migrate and begin using NetCharts Pro v7.0. Onsite services include travel costs to your site within the continental United States. For onsite services outside the continental United States, additional travel costs may apply.
