

## **Syntricity, Inc. and Visual Mining Announce Continued Strategic Business Partnership**

*NetCharts Server strengthens dataConductor.com Web-based data visualizations*

**ROCKVILLE, MD – January 10, 2007** – Visual Mining™, the premier provider of on-demand graphical reporting, visual analytics, and performance dashboard solutions, and Syntricity, Inc., the pioneer in enterprise yield management, today announced the continuation of a strategic business partnership by which Visual Mining will provide Syntricity with a charting solution for Syntricity's customers to analyze their data with Web-based reports.

"We are pleased to partner with Visual Mining as we continue to build more robust features into our Software-as-a-Service (SaaS) dataConductor.com enterprise yield management system," said Michael A. Crawford, Senior Vice President of Engineering at Syntricity. "Visual Mining's world-class capabilities will enable Syntricity's customers to easily view and analyze their statistical data to improve yield, reduce product development cycles, and increase profits."

"Leading companies such as Syntricity are increasingly using performance dashboards as a tool to drive strategic value, allowing them to be more flexible and adaptive while focusing employee's on the company's core competencies," said Michael MacDonald, CEO and Founder, Visual Mining. "Visual Mining's extensive experience in data visualization and incorporating Web 2.0 technologies will bring innovation and new efficiencies to Syntricity and its customers."

### **About Syntricity, Inc.:**

Syntricity is the pioneer in enterprise yield management. Its yield management software is used by leading semiconductor companies, test vendors and wafer foundries to gather, manage and analyze data from facilities around the world. A privately-held company, Syntricity is headquartered in San Diego, California. Learn more about Syntricity and its products at [www.syntricity.com](http://www.syntricity.com).

### **About Visual Mining, Inc:**

Visual Mining develops graphical reporting, visual analytics, and on-demand performance dashboards for Business Intelligence solutions. Visual Mining produced NetCharts® as the industry's first commercial Java-based charting engine. Sales Executive™, an on-demand business intelligence solution, represents industry best practices developed through a decade of experience in serving thousands of customers worldwide. Visual Mining products are deployed worldwide and have earned numerous industry awards, including the 2003 Intelligent Enterprise Magazine's Readers' Choice Award for data visualization software and recent selection as a finalist in the Software & Information Industry Association's 20th Annual Codie Awards. Information about the company's products and services is available at [www.visualmining.com](http://www.visualmining.com).
