

Jamaican Ministry of Transport & Works Selects NetCharts Performance Dashboards *Ministry Directors More Effectively Monitor & Manage Performance of 17 Government Agencies*

ROCKVILLE, MD – February 9, 2010 - Visual Mining, a leader in dashboard and data visualization solutions, today announced the Jamaican Ministry of Transport & Works selected Visual Mining's NetCharts Performance Dashboards to help better manage the performance of 17 agencies within the Ministry.

The mission of the Jamaican Ministry of Transport & Works is to contribute to the economic growth and social development of Jamaica by securing resources and providing effective policies, planning, standards and regulations for the provision of safe and sustainable transport systems. The ministry leverages NetCharts Performance Dashboards as the cornerstone of a new performance monitoring system. Ministry [Directors are now able to monitor the 17 agencies under their supervision and can freely, creatively edit and update their dashboards based on their own individual needs and exploration.](#)

"We selected NetCharts Performance Dashboards to more effectively monitor and manage the performance of our government agencies," said Omar Auld, Developer for the Jamaican Ministry of Transport & Works. "It is very flexible and can be used in a variety of situations. Perhaps most importantly, NetCharts Performance Dashboards frees up considerable time and resources. Directors will now be able to focus on transport issues and not on software issues."

NetCharts Performance Dashboards enables *Agile Performance Dashboarding* - empowering end users with both the ability to quickly create and deploy dynamic dashboards, and the ability to interact with data however and whenever they need. By unlocking the power of Business Intelligence for end users, NCPD delivers self-sufficient data exploration and analysis for a better understanding of business drivers, resulting in proactive decisions that achieve better business results.

"We are very proud of our relationship with the Jamaican Ministry of Transport & Works," said Tristan Ziegler, CEO and President, Visual Mining. "Agile Performance Dashboarding is necessary to running a large government agency -- as it provides cost effective, yet comprehensive insight and analysis."

About The Jamaican Ministry of Transport & Works

The mission of the Jamaican Ministry of Transport & Works is to contribute to the economic growth and social development of Jamaica by securing resources and providing effective policies, planning, standards and regulations for: the provision of safe and sustainable transport systems, for the movement of people and goods, and the achievement of efficient, high quality and timely architectural engineering and technical works.
