

Fogbreak Software selects Visual Mining's NetCharts® Pro for charting in compliance solutions

Rockville , Maryland - March 1, 2005 - Visual Mining, Inc., a leading developer of reporting and data visualization solutions, announced today that Fogbreak Software, Inc. has selected NetCharts® Pro to provide custom graphing for their compliance platform that automates key controls for order-to-cash, procurement, and inventory processes for the modern manufacturer.

"We use NetCharts Pro to give our end-users graphs showing lead time trending (commodity pricing over time), liability trending, buffer stock, control charts, and more," said Trung Dung, Founder and CEO of Fogbreak Software, Inc. "We reviewed several competing products and found Visual Mining's NetCharts Pro offered the best capabilities for creating both pre-designed and custom charts within our solutions. This adds a huge amount of value for our modern manufacturing customers who need to assess data quickly to make vital business decisions."

"NetCharts Pro's flexibility and rich feature set allows software development organizations to quickly add interactive graphing capabilities to their offerings with significantly lower cost and time investments," said Michael MacDonald, Founder and CEO of Visual Mining. "For the end-user, NetCharts Pro graphs provide decision makers with the information they need to turn raw data into real time, useable knowledge for better business decisions."

About Fogbreak Software, Inc.

Fogbreak Software provides solutions to automate key controls for the order-to-cash, procure-to-pay, and inventory processes of today's innovative manufacturer. Fogbreak's enterprise compliance management solutions deliver stronger financial controls, lower compliance cost and risk, and better decision making through improved business intelligence. Based in San Ramon, California, Fogbreak is a privately held company backed by premiere venture capital firms including Greylock, Globespan Global Partners, Matrix Partners and Sigma Partners.
