

Visual Mining Reports Solid First Quarter

*NetCharts Performance Dashboards™ helps businesses respond quickly to economic downturn;
Key customers renewed; Continued profitability*

ROCKVILLE, MD – April 27, 2009 – Visual Mining, a leader in delivering visualization solutions that instantly transform data into actionable business information, today announced results for the period ending March 31, 2009. The company kick-started its fiscal year with the announcement and general availability of NetCharts Performance Dashboards ([Visual Mining Launches NetCharts Performance Dashboards for Business Users, Feb. 10, 2009](#)). Other highlights for the quarter included:

- Obtained a monthly average of nearly 300 customer evaluations of NetCharts Performance Dashboards
- Added to, and renewed partnerships with several key customers and partners, including Arbor Networks, OpenText, and Merced Systems
- Renewed relationship with world's foremost provider of independent credit ratings, indices, risk evaluation, investment research and data
- Entered 9th year of profitability with 33rd consecutive profitable quarter

"We are proud to deliver a solid first quarter during these challenging times", said Tristan Ziegler, CEO of Visual Mining. "We are seeing tremendous interest and market momentum with NetCharts Performance Dashboards. Visual Mining customers are realizing the power of Agile Performance Dashboarding™ and they are quickly and more effectively able to identify trends, relationships between initiatives and results, and the drivers (key performance and risk indicators) that will help them succeed in a market where less informed competitors falter."

NetCharts Performance Dashboards enables *Agile Performance Dashboarding™*; where the power of business intelligence is immediately placed into the hands of the end-user. This provides an attractive alternative to the costly and lengthy implementation cycles associated with traditional business intelligence tools.
