

**New Version of NetCharts Performance Dashboards™
Delivers Expanded Value for Financial Professionals**
Provides More Flexible Data Discovery and Efficient Communication

ROCKVILLE, MD – August 13, 2009 – Visual Mining, a leader in delivering dashboard and data visualization solutions that instantly transform data into actionable business information, today announced their latest version of NetCharts Performance Dashboards™ (NCPD). With this updated version, finance, accounting and human resources professionals are now able to more intuitively filter, review, and share information.

“By adding features such as community default home pages, more intuitive row grouping for detailed data visualization and analysis, enhanced graphics, and expanded support for the latest versions of leading web browsers, our latest release of NetCharts Performance Dashboards demonstrates our commitment to providing value to the office of the CFO,” said Tristan Ziegler, President and CEO, Visual Mining.

This latest release includes an enhanced graphics rendering engine for even more dashboard display options and end user customization and control, along with user interface enhancements to add to the product’s ease of use. Additionally, the release includes expanded support for Microsoft Excel and Access, as well as the latest versions of Internet Explorer and Mozilla Firefox. Plus, with a new Success Guarantee and Quick Start Services included with NetCharts Performance Dashboards - Enterprise Edition, customers are assured immediate results – without the risk and runaround typically associated with other business intelligence and dashboard implementations.

NetCharts Performance Dashboards enables *Agile Performance Dashboarding™*; where the power of business intelligence is immediately placed into the hands of the end-user. This provides an attractive alternative to the costly and lengthy implementation cycles associated with traditional business intelligence and dashboard tools.
