

TierOne Hospitality Solutions Selects NetCharts Server and Designer
Leading Provider of Technology Solutions to the Hospitality Industry
Now Offers Award-Winning Business Intelligence Dashboards

ROCKVILLE, MD – September 14, 2010 - [Visual Mining](#), a leader in business intelligence dashboard and data visualization solutions that instantly transforms data into actionable information, today announced that TierOne Hospitality Solutions, a leading provider of technology solutions for the hospitality industry, selected NetCharts Server and Designer to help improve their customers' operations, efficiency and profitability.

TierOne Hospitality Solutions provides software solutions for the hospitality industry including, Property Management Systems, Spa Management Systems, and Sales and Catering Event Management systems. [NetCharts Server and Designer adds dynamic, interactive business intelligence to this industry-leading suite of products](#) — enabling TierOne to create a new solution for their customers – *DashOne*.

“NetCharts Server and Designer provides an easy, affordable way to create and deliver our new DashOne solution, which we are confident will be a tremendous value to our customers,” said Jordan R. Wood, Director, Technical Sales & Support, TierOne Hospitality. “Visual Mining has been a great partner — we could not be happier with the help and support we’ve received.”

With DashOne, customers operating any solution provided by TierOne Hospitality will be able to access and explore their data in order to help better manage their businesses. DashOne will provide a higher level of data analysis for these solutions and will provide operators of hotels and conference centers the knowledge necessary to make real-time decisions with data at their finger tips. Specifically, TierOne Hospitality customers will be able to gain immediate insight into real-time operations such as occupancy statistics, revenue and reservation activity.

“We are pleased to welcome TierOne Hospitality Solutions as a valued Visual Mining partner. NetCharts Server and Designer is an ideal platform to develop and deliver effective interactive dashboards, scorecards, and business intelligence (BI) applications. We look forward to continuing our work with TierOne Hospitality and adding value to their new DashOne Solution for the hospitality industry,” said Tristan Ziegler, President and CEO of Visual Mining.
