

Visual Mining Extends Leadership with NetCharts Designer and NetCharts Server v6

New, Major Release Affirms Designer/Server as the Defacto Standard

Data Visualization Platform for Demanding Developers

ROCKVILLE, MD – September 30, 2009 – Visual Mining, a leader in dashboard and data visualization solutions that instantly transform data into actionable business information, today announced the immediate availability of both NetCharts Designer and NetCharts Server v6.0. [Fully functional, evaluation copies of NetCharts Designer and NetCharts Server v6 are available now.](#)

New benefits and features of NetCharts Designer and Server v6.0 include:

- Powerful Analytics Library For Rapid Insight and Analysis
 - More than 50 pre-built analytic functions (i.e., statistical, financial, calculus functions) and process controls provide immediate analysis and understanding of data.
- Expanded and Enhanced, High Impact Data Visualization Functions
 - Improved Data Tables - Charts now support Excel-style data legends. Data points can now be displayed as tables integrated into the chart axis.
 - New Drawing Styles – Variable width bars can be used to create bullet charts, and enhanced title styles provide new mechanisms for visual alerting.
- Expanded Support for the Latest Java Production Environments

“NetCharts Designer and Server provide everything we need to create an interactive dashboard,” said Chad Haftorson, Vice President of Products, Innotas. “Thanks to NetCharts Designer and Server, we are able to cost-effectively offer our clients dynamic charts with just a few keystrokes.”

“Though some companies are abandoning products and initiatives during this economic downturn, we are successfully weathering the storm and continue to build valuable and powerful new features into our products-- as evidenced today, by our major release of both NetCharts Designer and Server. By providing our customers with a continuous feedback loop, we ensure continual value, relevance, and success for our customers,” said Tristan Ziegler, President and CEO, Visual Mining, Inc.
